CAPTURE YOUR THINKING

To capture your thinking while you read over the summer, **create a notebook page for each of your two literacy choices***. (See the models below - this is your work so format or create a page that works to show your thinking). Within the first weeks of the school year, we will be utilizing your visual thinking pages to discuss and write about what you found most fascinating about your "summer reading". We look forward to beginning the school year with students who have explored options that fit their passions and literacy goals.

***NOTE: We do not expect you to create more than three notebook pages.**
